## 1.1 EUROPEAN ATHLETICS PRESIDENT

I am very pleased to welcome everyone to this year's European Throwing Cup in Šamorín.

This will be the 19<sup>th</sup> edition of this competition since it was inaugurated in 2001 but the first time it will have been staged in Slovakia.

Nevertheless, Šamorín is not an unfamiliar location for European Athletics events and staged the 2017 SPAR European Cross Country Championships.

We had already made the decision to stage this European Throwing Cup here in Šamorín prior to those Championships but the success the local organisers made of hosting that event means I can say with confidence that it was definitely the right decision to come back here.

I think it's worth recalling some of my comments at the pre-event press conference in Šamorín back in December 2017. "I can say honestly that

I have never been in such a fantastic venue as this for the SPAR European Cross Country Championships. It's great having everything under one roof."

I meant every word and I can attest to the fact that the accommodation for the officials and athletes, regardless of the nature of the event, is superb and having the competition venue within walking distance is a huge advantage for everyone.

History suggests that a number of medallists from last summer's Berlin 2018 European Athletics Championships will be in action here in Šamorín and it will be an important **early form guide – both for the athletes themselves, their coaches and athletics fans – ahead of the IAAF World Championships later this summer.**

The list of winners from the Cup 12 month ago included Daniel Stahl, Pawel Fajdek,

2017 European Athlete of the Year Johannes Vetter and Nadine Muller, which gives an indication of how important and attractive the Cup is for Europe's top throwers.

Notably two Berlin champions, Michal Haratyk and Christin Hussong, finished second in their events on that occasion but bounced back to claim titles in the German capital.

I and European Athletics are very grateful to the Slovak Athletic Federation, the town of Šamorín, the x-bionic sphere management as well as all the officials and volunteers with the Local Organising Committee for all their hard work and commitment to staging this event.

I wish everyone an enjoyable and successful time in Šamorín and I feel sure that once again we will see some outstanding performances and big distances from the throwers.

Svein Arne Hansen  
European Athletics President

## 1.2 DEPUTY MAYOR OF THE CITY OF SAMORIN

Dear Ladies and Gentlemen, dear athletes,

Please allow me to welcome you to the 19th European Throwing Cup on behalf of the inhabitants of the town of Šamorín and its surrounding area. It is a great honour that this significant competition is taking place in Šamorín, a city with a rich history, which has welcomed several kings, state representatives, famous artists or sportsmen during his almost eight hundred year history. It will now be the scene of the competition, where the best throwers from all over Europe will take part.

We are looking forward to this event because our town of Šamorín is known for its rich sports life. It has also been home to several sports clubs, and their members have been representing us successfully for many decades at home and foreign competitions including the Olympic Games.

The possibility to organise the European Throwing Cup is a challenge for us. It is not an everyday thing to see the best European shot putters, discus, hammer or javelin throwers.

Finally, in the name of all inhabitants of the city of Šamorín, let me wish the participants of the European Cup a lot of success, interesting sport moments to the spectators, and, after the end of the competition, I wish you many pleasant moments in our town in the heart of the upper Žitný ostrov in your free time.

**Csaba Orosz,**  
Mayor of Šamorín

## 1.3 PRESIDENT OF THE SLOVAK ATHLETIC FEDERATION

Dear guests, dear athletes,

Slovak athletics was given the opportunity to welcome the top class athletics in the modern sports area of x-bionic® sphere in Šamorín for the second time in a short period of time. In December 2017, we successfully organised the 24th European Cross Country Championship, and 15 months later, in March 2019, we welcome the best throwers of our continent. I believe that they will gain positive impressions from Šamorín, just like the best European runners before.

Slovakia will become only thirteenth country where the European Throwing Cup will be held. We appreciate the chance to organise this important event - also

because the throwers have been a strong part of Slovak athletics for years. Let us mention the 2010 European champion and the 2007 World championships bronze medallist in hammer throw Libor Charfreitag, the double European silver medallist in women's hammer throw in 2012 and 2014 Martina Hrašnová, Marcel Lomnický, the multiple Olympic, World and European hammer throw finalist, and we must not forget the first world champion in discus throw from Helsinki 1983 Imrich Bugár, who started to train the event in the town of Dunajská Streda, just a short distance from Šamorín, the venue of the 2019 European Throwing Cup.

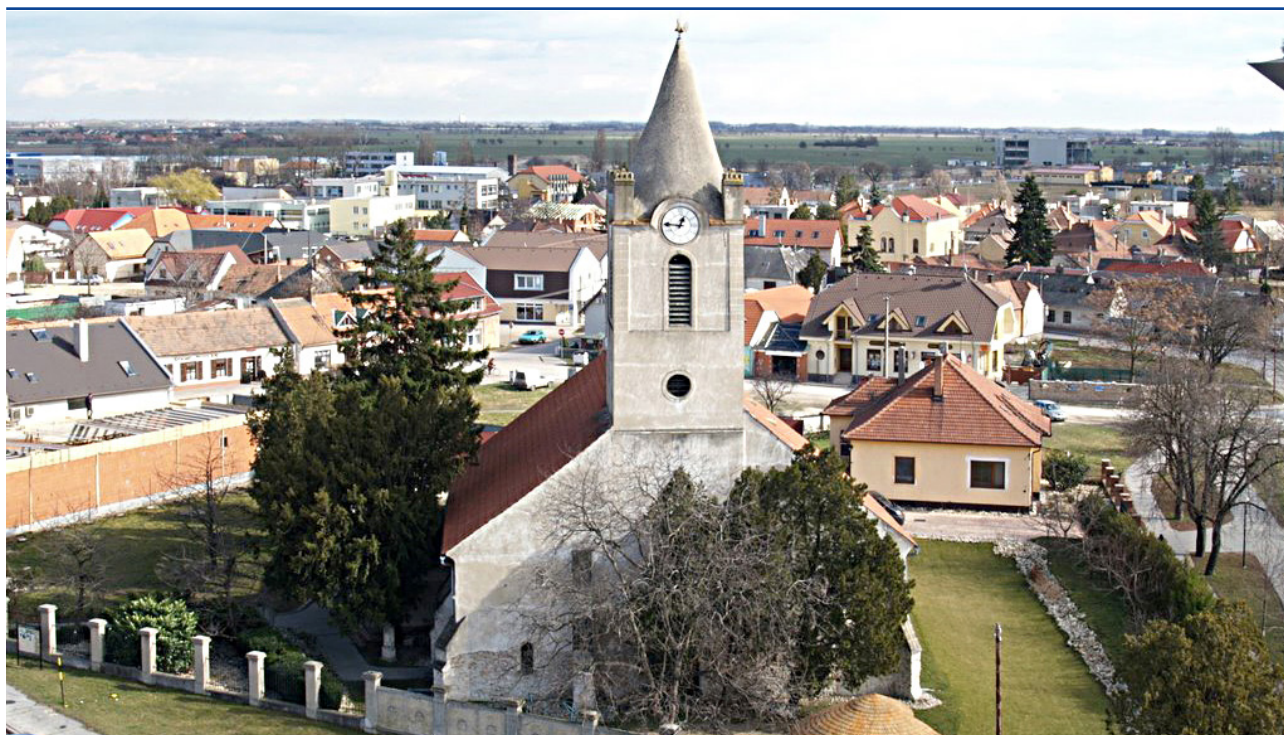

I believe that the interesting contests of the continental elite of shot putters, discus, hammer and javelin throwers are waiting for us in x-bionic® sphere and that they will be a significant inspiration and an important milestone for a new generation of Slovak throwers on their way to becoming dignified successors of those successful athletes.

I wish all participants of the 19th European Throwing Cup will enjoy the most beautiful experiences and personal records. I am convinced that you will feel good here.

Welcome to Slovakia,  
welcome to Šamorín!

Peter Korčok,  
President of the EC Organising Committee,  
President of the Slovak Athletics Federation

## 2. Šamorín, Host City

Šamorín is a small Slovak town in western Slovakia, southeast of Bratislava. The town is located on the Danubian Flat on the Rye island, near the Gabčíkovo dam on the Danube. It is

located around 17 kilometres (11 miles) southeast of Bratislava. According to the 2014 census, the municipality had 13,028 inhabitants.

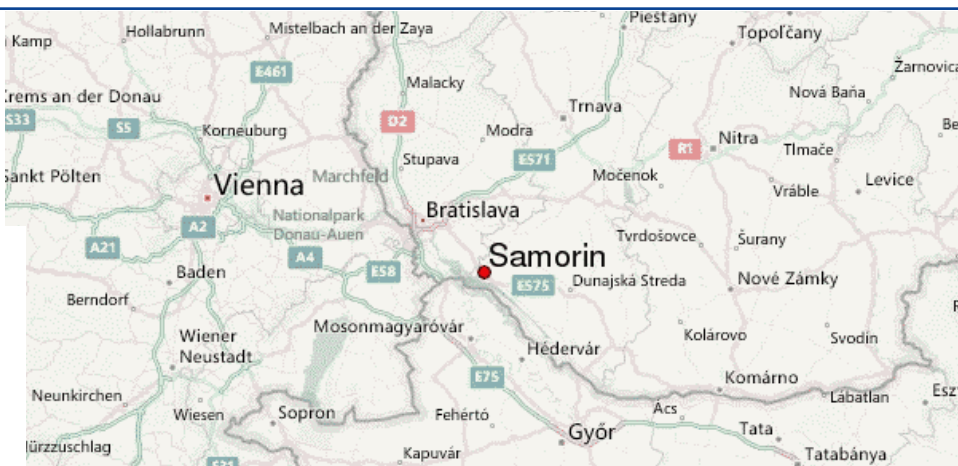

### 3. Date and venue
